U. S. Department of Agriculture

Beautiful 4 inch blooming size plants of the following:

Mentor Boy . . . . . Dark purple flowers  
Blue Bird . . . . . An excellent dark purple flower borne on long stems. The leaf stems are exceptionally long, and the underside of the leaf is beautifully colored.  
Blushing Maiden . . . . Fine plant of bushy growth having three to five crowns and flowers of a very delicate pink.  
Ulerys' Blue Girl . . . . A nice bushy plant with an average of four to five crowns that has leaf growth of up-right habit. The leaves have a cerate margin and a white spot where the leaf joins the stem. A beautiful plant even when not in bloom.

\$2.00 each.

Three-inch plants recently potted into four-inch pots. Plants average three to five crowns:

White Lady . . . . . Beautiful paper-white blooms  
Pink Beauty . . . . . Rosy pink flowers

\$1.75 each.

Ulerys' Blue Girl . . . . (Same as above \$2.00 plant)

\$1.50 each.

Fine 2½ inch plants in the following:

Viking  
Blushing Maiden  
Blue Boy

White Lady  
Pink Beauty  
Ulerys' Blue Girl

The three plants in the second group above are patented. Propagation for re-sale is prohibited.

\$1.00 each.

<u>Easter Lily Cactus</u>		\$.50 each
<u>Christmas Peppers</u> . . .	(Used for decorations. May be set	
<u>Christmas Cherries</u> . . .	(out in yard until freezing weather and placed outside in the spring.	\$.60 each

Watermelon Begonia . . . Very attractive plant for kitchen, window gardens, or as a dish garden plant. The large round, green leaf with silver stripe reminds one of the water-melon, hence the name.

2 $\frac{1}{4}$  inch plant . . . . \$ .60 each  
In plastic pot (green) \$ .85 each  
Large 3 inch plant . . \$1.25 each

Jacobinias . . . . . Beautiful pink bloom . After blooming may be cut back and it will bloom again and again. May also be put in yard in semi-shade.

\$1.00 each

Variegated Chinese Evergreens . . 12 to 15 inches tall. Nice large plants with silver stripe.

\$1.00 each

Draceana Sanderiana . . . Green and white variegated leaves that branch from a single main stem, making a symmetrical plant, 10 to 15 inches tall.

\$1.00 each

Devils Ivy . . . . . Three long runners to each 4 inch pot.

\$1.00 each

Tradescantia . . . . . Dis-Color. Long pointed purple and green leaves. Ideal for window gardens.

\$ .50 each

Pellionia Deveauana . . . Very attractive and unusual plant with flat leaves of red and green. Excellent slow-growing and creeping plant for hanging basket. 4 inch pot.

\$1.50 each

Strawberry Begonias . . . Small plant with almost round, different colored leaves. New plants are produced on runners in same manner as strawberry plants.

\$ .50 each

Primula Obconica . . . Lovely house plant for fall and winter or for gift.

\$ .50 each

#### Philodendron

Imbe, Hostatum, Dubium . . Large, beautiful plants \$3.50 each

Bird-Nest Fern . . . Large, flat, beautifully shaped green leaves that form a circle directly from the center of the pot. 12 to 15 inches tall.

\$3.50 each

Dracaena Warnecki . . . This plant has long pointed, green leaves striped with silver that branch in every direction from the main stem. This makes a beautiful bushy plant with a diameter of 12 to 18 inches.

\$3.50 each

The above three plants are unusual and excellent for sun porch, living room or conservatory, or for fill-ins for artificial fireplace.

Dieffenbachia - De Baucy . . A very pale yellow-green leaf with a dark green mottled variation in center.

\$1.00 each

Dieffenbachia - Picta Beautiful large dark green leaves with yellow markings.

\$1.00 each

Dieffenbachia - Rudolph Roehrs . . Leaf blade almost entirely yellow with green border and blotched ivory.

\$1.00 each

These are very beautiful and unusual plants. Excellent keepers. Must be seen to be appreciated. All are 10 to 15 inches tall and can be used for height in large dish gardens.

#### DISH GARDEN AND TERRARIUM PLANTS

Devils Ivy . . . . . Nice runners

Philodendron . . . . . Nice runners. Small, green almost heart-shaped leaves.

Small Bird-Nest Fern . . . Very attractive and unusual plant (see page 2 for description)

Draceana Godseffiana . . . Dark green leaf with gold spots.

Serissa . . . . . Small leaves with rim of white around outer edge. A very small bushy and beautiful plant. Every dish garden and terrarium should have one.

Hahns Ivy . . . . . Self-branching ivy, long runners

Pedilanthus . . . . . Two varieties - green with pale yellow-green variation and green and white variety. Very nice plant with unusual shaped stems.

Assorted Crotons . . . . . Some crotons have a long corkscrew-shaped leaf, variegated with various shades of red, while others have a long flat leaf and an unusual yellow and green variegation. Nice bushy plants.

Crown of Thorns . . . . . Nice 12 to 15 inch plants.

Podocarpus . . . . . A single stem plant with narrow leaves that branch directly from the main stem and form a symmetrical plant.

Panaraga . . . . . A small dwarf plant with dark green crinkled leaves. Fine for fancy dishes.

All of the above plants are nice size. \$ .50 each

<u>Watermelon Begonia</u> . . . .	Peltate leaves with watermelon design of silver. This is one of the most popular and unusual plants grown today.	
		\$ .60 each
	In green plastic pots	\$ .85 each
	Large plants	\$1.25 each
